SOCIAL AND BEHAVIORAL SCIENCES GENERAL EDUCATION SUBJECT AREA OBJECTIVES

Social and behavioral science courses provide instruction in the history, key themes, principles, terminology, and underlying theories or methodologies used in the social and behavioral sciences. Students will learn to identify, describe, and explain social institutions, structures, or processes. These courses emphasize the effective application of accepted problem-solving techniques. Students will apply formal and informal qualitative or quantitative analysis to examine the processes and means by which individuals make personal and group decisions, as well as the evaluation of opinions, outcomes, or human behavior. Students are expected to assess and analyze ethical perspectives in individual and societal decisions.

GENERAL EDUCATION STUDENT LEARNING OUTCOMES

Category	Institutional Definition	Institutional SLO
Content	Content is knowledge of the concepts, principles, terminology, and methodologies used within the discipline.	Students demonstrate competence in the terminology, concepts, methodologies, and theories used within the discipline.
Communication	Communication is the development and expression of ideas in written and oral forms.	Students communicate knowledge, ideas, and reasoning clearly and effectively in written or oral forms appropriate to the discipline.
Critical Thinking	Critical thinking is characterized by comprehensively analyzing issues, ideas, and evidence before accepting or formulating an opinion or conclusion.	Students analyze information carefully and logically from multiple perspectives, using discipline-specific methods, and develop reasoned solutions to problems. These will be accomplished through assignments and assessments given in this course.

OVERVIEW

This course is an overview of major topics in modern psychology, the scientific study of behavior and mental processes. As a first course in the discipline of psychology, it introduces some of the fundamental concepts, principles, and theories with consideration for the complexity of human behavior.

COURSE GOALS

The information and activities in this course are organized around three broad learning goals:

1. To understand the scientific method and its role in psychology.
2. To become familiar with the major content domains of psychology, such as biological psychology, social psychology, and personality psychology.
3. To apply the information you have learned better to understand the human experience, including your own.

In addition to these broad goals, we will have a set of specific learning objectives for each module.

COURSE REQUIREMENTS

As this is an online class, you are encouraged to be self-directed and take responsibility for your learning.

You are also expected to check your email regularly (at least once a day) and to visit e-Learning on a regular basis. Students typically find that for each credit, at least one hour of preparation is required.

COURSE MATERIALS

Everything you need for the course can be accessed on Canvas. Our textbook is the e-book version of *Psychology: From Inquiry to Understanding* (5th edition) hosted on Pearson Publishing's Revel platform. For the best price and quickest access, I recommend you opt-in to this class through [UF All Access](#). (As you read, engage with the videos and other interactive features embedded in the text, as you will be responsible for this material on exams. The exception to this is the writing prompts that appear every so often throughout the text – you are **not** required to respond to these.) I strongly recommend downloading the [Revel mobile app](#) to your laptop, tablet, and/or mobile phone. (**Seriously – please do this!**) The app has several useful features, including:

- Offline access to the textbook (for when your internet is spotty during hurricane season!)
- Access to the complete audio version of the book
- Access to the Revel section quizzes that will help you prepare for the quizzes and exams
- Access to flash cards for the key terms in each chapter

Our textbook is integrated with the Canvas website for this class. Also, on Canvas, you'll find this course's thirteen modules. The learning center page for each module contains links to the required lectures, readings, external videos, and all assignments and exams.

PREREQUISITES

There are no prerequisites for this course.

MINIMUM TECHNOLOGY REQUIREMENTS

Below are the general technology requirements for taking an online course.

The University of Florida expects students entering an online program to acquire computer hardware and software appropriate to their degree program. Most computers are capable of meeting the following general requirements. A student's computer configuration should include:

- Webcam
- Microphone
- Broadband connection to the internet and related equipment (cable/DSL modem)
- Microsoft Office Suite installed (provided by the university)

Individual colleges may have additional requirements or recommendations that students should review before starting their program.

MINIMUM TECHNICAL SKILLS

Below are the minimum technical skills needed for taking an online course.

To complete your tasks in this course, you will need a basic understanding of operating a computer and using word processing software.

MATERIALS/SUPPLY FEES

There is no supply fee for this course.

HONORLOCK

Honorlock is an online proctoring service that allows students to take exams on-demand 24/7. There are no scheduling requirements or fees.

You will need a laptop or desktop computer with a webcam, a microphone, and a photo ID. The webcam and microphone can be either integrated or external USB devices.

Honorlock requires that you use the [Google Chrome](#) browser and that you must add the Honorlock extension to Chrome.

For further information, FAQs, and technical support, please visit [Honorlock](#).

ZOOM

Zoom is an easy-to-use video conferencing service available to all UF students, faculty, and staff that allows for meetings of up to 100 participants.

You can find resources and help using Zoom at the [University of Florida's Zoom](#) website.

COURSE POLICIES

Requirements for make-up exams, assignments, and other work in this course are consistent with university policies found on [UF's Attendance Policies](#) website.

PERFORMANCE POLICY

This Flexible Learning course has been developed with the same rigorous standards of content as a campus course. Expectations for your performance as a Flexible Learning student are as high as they would be if you were taking this course in a classroom.

PARTICIPATION POLICY

Students are required to participate in all course activities and submit all assignments posted on the website.

REQUESTS FOR REGRADES

You have one week after a grade has been posted to dispute your grade and request that the grader take a second look at your work. Please note that requests for regrades will not be considered after the one-week window has passed. In your request for a regrade, contact the grader with information about the assignment you are referring to and a clear explanation of why you believe your grade is not accurate. If needed, refer to material in the textbook or other course resources (e.g., posted videos, rubrics, etc.) to provide evidence for why the grade you received is incorrect.

[Contact Dr. Kerr](#) for assistance with grades only if you are unable to come to a satisfactory resolution with the grader or if Dr. Kerr was the grader. This policy applies to all types of graded work in this class, including writing assignments, module quizzes, and exams. Please check the [Instructor Contact](#) page for information about who to contact for each assignment type.

COURSE COMPLETION POLICY

Students are allotted **16 weeks** from their enrollment date to complete the course. If a student fails to complete the course before expiration, a failing grade (E, E0, or E1) will be issued and recorded to the UF registrar. Students also need to **spend at least four weeks** to complete the course. A final grade will not be posted until students have been in the course for four weeks.

- All quizzes, exams, and assignments must be completed and submitted for grading a **minimum of two weeks before the course expiration date**. This is to ensure the grades will be posted in plenty of time for transcripts.
- The policy is to submit up to two assignments per week, with as the maximum.

There will be nine chapter quizzes during the semester (9 x 25 points each = 225 pts). Quizzes are designed to assess your understanding of the course material in each module. Each quiz contains 25 multiple-choice applied questions, with each question worth 1 point. Module Quizzes can be found on Canvas under the "Quizzes" tab and on each Module overview page.

Exams are non-cumulative and will cover all material presented in the modules, including textbook chapters, enrichment lectures, required external videos, and required supplemental readings. UF POLICIES

UNIVERSITY POLICY ON ACCOMMODATING STUDENTS WITH DISABILITIES

Students with disabilities requesting accommodations should first register with the [Disability Resource Center](#) (352-392-8565) by providing appropriate documentation. Once registered, students will receive an accommodation letter that must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

UNIVERSITY POLICY ON ACADEMIC CONDUCT

As a student at the University of Florida, you have committed to upholding the [Student Honor Code](#), which includes the following pledge: "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity." You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment."

It is assumed that you will complete all work independently in each course unless the instructor explicitly permits you to collaborate on course tasks (e.g., assignments, papers, quizzes, exams).

Furthermore, as part of your obligation to uphold the Student Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your responsibility to know and comply with all university policies and procedures

regarding academic integrity and the Student Honor Code. Violations of the Student Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action.

PLAGIARISM

A student shall not represent as the student's own work all or any portion of the work of another. Plagiarism includes but is not limited to:

1. Quoting oral or written materials, including but not limited to those found on the internet, whether published or unpublished, without proper attribution.
2. Submitting a document or assignment which in whole or in part is identical or substantially identical to a paper or assignment not authored by the Source: Regulations of the University of Florida, UF-4.041.

For a violation or violations of the Student Honor Code, a student may receive any of the sanctions that can be imposed for Student Conduct Code violations, including but not limited to conduct probation, suspension, and expulsion, as well as any educational sanctions. In addition, students may receive the following:

1. Assignment Grade: The student is assigned a grade penalty on an assignment, including but not limited to a zero.
2. Course Grade: The student is assigned a grade penalty in the entire course, including but not limited to an "E."

NETIQUETTE AND COMMUNICATION COURTESY

It is important to recognize that the online classroom is a classroom, and certain behaviors are expected when you communicate with your peers and your instructors. These guidelines for online behavior and interaction are known as netiquette.

SECURITY

Remember that your password is the only thing protecting you from pranks or more serious harm.

- Don't share your password with anyone.
- Change your password if you think someone else might know it.
- Always log out when you are finished using the system.

GENERAL GUIDELINES

When communicating online:

- Treat the instructor respectfully, even via email or other online communication.
- Always use your professors' proper title: Dr. or Prof., or if you are unsure, use Mr. or Ms.
- Unless specifically invited, don't refer to a professor by their first name.
- Use clear and concise language.
- Remember that all college-level communication should have correct spelling and grammar.
- Avoid slang terms such as "wassup?" and texting abbreviations such as "u" instead of "you."
- Use standard fonts such as Times New Roman and a 12- or 14-point font.
- Avoid using the caps lock feature, AS IT CAN BE INTERPRETED AS YELLING.
- Limit and possibly avoid the use of emoticons like :).
- Be cautious when using humor or sarcasm, as the tone is sometimes lost in an email or discussion post, and your message might be taken seriously or be construed as offensive.
- Be careful with personal information (both yours and others).
- Do not send confidential information via email.

EMAIL

When you send an email to your instructor, teaching assistant, or classmates:

- Use a descriptive subject line.
- Be brief.
- Avoid attachments unless you are sure your recipients can open them.
- Avoid HTML in favor of plain text.
- Sign your message with your name and return email address.
- Think before you send the email to more than one person. Does everyone really need to see your message?
- Be sure you REALLY want everyone to receive your response when you click "Reply All."
- Be sure that the message author intended for the information to be passed along before you click the "Forward" button.

DISCUSSION BOARDS

When posting on the discussion board in your online class:

- Check to see if anyone already asked your question and received a reply before posting to the discussion board.
- Remember your manners and say please and thank you when asking something of your classmates or instructor.
- Be open-minded.
- If you ask a question and many people respond, summarize all posts for the benefit of the class.
- When posting:
 - Make posts that are on-topic and within the scope of the course material.
 - Be sure to read all messages in a thread before replying.
 - Be as brief as possible while still making a thorough comment.
 - Don't repeat someone else's post without adding something of your own to it.
 - Take your posts seriously. Review and edit your posts before sending them.
 - Avoid short, generic replies such as, "I agree." You should include why you agree or add to the previous point.
 - If you refer to something said in an earlier post, quote a few key lines so readers do not have to go back and figure out which post you are referring to.
 - Always give proper credit when referencing or quoting another source.
 - If you reply to a classmate's question, make sure your answer is correct; don't guess.
 - Always respect others' opinions even when they differ from yours.
 - When you disagree with someone, you should express your differing opinion in a respectful, non-critical way.
 - Do not make personal or insulting remarks.
 - Do not write anything sarcastic or angry; it always backfires.
 - Do not type in ALL CAPS; if you do, IT WILL LOOK LIKE YOU ARE YELLING.

ZOOM

When attending a Zoom class or meeting:

- Do not share your Zoom classroom link or password with others.

- Even though you may be alone at home, your professor and classmates can see you! While attending class in your pajamas is tempting, remember that wearing clothing is not optional. Dress appropriately.
- Your professor and classmates can also see what is behind you, so be aware of your surroundings.
- Ensure the background is not distracting or something you would not want your classmates to see.
 - When in doubt, use a virtual background. If you choose to use one, you should test the background first to ensure your device can support it.
 - Your background can express your personality, but avoid using backgrounds that may contain offensive images and language.
- Mute is your friend, especially when you are in a location that can be noisy. Don't leave your microphone open if you don't have to.
- If you want to speak, you can raise your hand (click the "raise hand" button at the center bottom of your screen) and wait to be called upon.

TIPS FOR SUCCESS

Taking a course online can be a lot of fun! Here are some tips that will help you get the most out of this course while taking full advantage of the online format:

- Schedule "class times" for yourself. It is important to do the coursework on time each week. You will receive a reduction in points for work that is turned in late!
- Read ALL of the material contained on this site. There is a lot of helpful information that can save you time and help you meet the course's objectives.
- Print out the Course Summary in the Course Syllabus and check things off as you go.
- Take full advantage of the online discussion boards. Ask for help or clarification of the material if you need it.
- Do not wait to ask questions!
- Sometimes things happen. If your computer goes down when you are trying to submit an assignment, you'll need time to troubleshoot the problem.
- To be extra safe, back up your work to an external hard drive, thumb drive, or through a cloud service.

PRIVACY AND ACCESSIBILITY POLICIES

It is critical to protect your data and privacy. Since we use several online tools for this course (Canvas, Honorlock, Zoom), you should be mindful of protecting your own data.

- Do not share your personal information online.
- Do not share the password with others.
- Change your password if you think someone else might know it.
- Always log out when you are finished using the system.

This course offers pre-recorded video lectures, so there will not be any recording of class sessions. However, if there is any need to record the lecture, you will be notified so you can turn off your camera if you don't want to get recorded.
